Merry Christmas 2014

It's that special time of year again, a time we spend with friends and family, a time of rejoice and generosity, a time for sipping eggnog whilst warming our socks in front of a toasty fire, a time for stomping on Power Pads to squish bugs! Gather your five best friends for the 7th 8 BIT XMAS game, Killer Queen Arcade.

Goals:

#1 - Kill 3 queens. Only a queen can kill another queen, joust style.

#2 - Collect pellets. Both workers and soldiers can grab pellets. If you die with one it might not respawn!

#3 - Move the snail. Only workers can ride the snail, it is a suicide mission.

Controls:

Select - Switch to ROB mode, screen flashes to make ROB dance.

Start - Begin game

Left/Right - Move your player! Queen and soldier will kill other players when they collide, joust style. Workers can go into the transformer to become a soldier.

A - Queen tells AI players to go for the snail.

B - Queen tells AI players to go for pellets.

Gamepads:

1-2 players, use 2 standard controllers

3-4 players, use a Four Score and 4 standard controllers

5-6 players, use 2 Power Pads. Turn each mat to side B. Buttons 2/3 are used for that team's queen. Buttons 9/10 and 11/12 are used for the other 2 players. The A/B controls are not available.

Happy Holidays!
